× 16.54"-33.46" L**

FILM THICKNESS

1.57-3.15 mil

WEIGHT

**440.92 lbs (200
kg)**

OVERVIEW

The YPX-WBD60A adapts the drop-style bagging platform to a horizontal, front-loading configuration built for long, bulky, or awkwardly shaped items that don't suit a standard vertical drop bagger — think apparel on hangers, framed goods, tubing, or multi-item kits.

45° VIEW

DESCRIPTION

The YPX-WBD60A adapts the drop-style bagging platform to a horizontal, front-loading configuration built for long, bulky, or awkwardly shaped items that don't suit a standard vertical drop bagger — think apparel on hangers, framed goods, tubing, or multi-item kits.

Product is placed onto the horizontal bed and pre-opened bags on a roll are drawn over it, with a discharge conveyor carrying the finished pack out to downstream conveyance. The open frame and simple control scheme keep training time low, which matters in seasonal, high-turnover labor environments.

An optional thermal-transfer printer or label applicator adds text, barcodes, or graphics to the bag, and the built-in automation interface makes it straightforward to feed the WBD60A from a robot or other automated infeed.

The stand rides on casters for portability, and the machine shares the same zero-force seal bar and light-curtain safety options used across the drop-style bagger family.

KEY BENEFITS

Machine Features

- Runs pre-opened bags on a roll
- Wide color touchscreen with clear prompts and alarms
- Discharge conveyor for unrestricted access and easy hand-off downstream
- Simple operation minimizes training time for seasonal/high-turnover labor
- Casters and a compact stand for portability

Maintenance Benefits

- Off-the-shelf modular components
- Remote networking for troubleshooting
- Built-in self-diagnostics
- Quick-access electrical service points

Safety Benefits

- Zero-force seal bar closing
- Optional light curtain interlock
- ISO 9001-aligned design

TECHNICAL DATA

Model	Horizontal Drop-Style Auto Bagger
Speed	Up to 1,200 bags/hour (20 bags/min)
Bag Width	11.02" – 23.62"
Bag Length	16.54" – 33.46"
Bag Thickness	1.57 – 3.15 mil
Power	1,500 W
Electrical	110/220V, 50/60Hz
Dimensions (W x D x H)	52.01" x 38.07" x 71.42"
Weight	440.92 lbs (200 kg)

Built-in interface for robotic or automated in-feed of long/variable-length products.
